

Author Bio for Kaki Warner

Kaki Warner is an award-winning author and long time resident of the Pacific Northwest. Although she now lives on the eastern slopes of the Cascade Mountains in Washington State, Kaki actually grew up in the Southwest and is a proud graduate of the University of Texas. Her years spent riding horses and enjoying the expansive views of Texas became the inspiration for the backdrop of her novels - the wide-open spaces of historic New Mexico Territory.

Several years ago after their two children had left for college, Kaki and her husband, Joe, moved from the city to their hilltop cabin overlooking the scenic Methow Valley. Kaki now spends her time gardening, hiking, reading, writing, and soaking in the view from the deck with her husband and floppy-eared hound dog.
